Experience

Mindera

Intern Android Developer

Feb 2019 – Sep 2019

Architect and Developer of the Mindera People App.

Mindera People is an internal organizational platform that features tools to help administrative functions, people allocation, human resources automation and finances. I was also in charge of setting up the CI/CD process.

Keywords: Kotlin, MVVM, Retrofit, Room, RxJava, Roboelectric, Crashlytics, Jenkins

Android Developer

Sep 2019 - Present

Worked on SmartBox's Beneficiary and Partner apps.

Smartbox's Beneficiary app is an application to help register, select, book, exchange and redeem Smartbox experiences from the smartphone.

Smartbox's Partner app is an application designed to help Gastronomy, Wellness and Adventure experience providers conveniently process Smartbox vouchers.

Keywords: Kotlin, MVVM, Redux, RxJava, Espresso, Koin, Firebase, Jenkins
